

New Red Light Camera

Published on City of Miami Springs Florida Official Website (<http://www.miamisprings-fl.gov>)

New Red Light Camera

On **January 23, 2013**, the newest Red Light Camera location was activated and is capturing violations. **Located on westbound NW 36 Street at Sheridan Drive**, this Red Light Camera will capture red light running violations as well as right turns on red that were not in a safe and prudent manner. The Red Light Camera will feature the most advanced over-the-road detection technology, using a 3-D radar tracking sensor developed specifically for photo traffic enforcement systems. Click on the attachment and link below for more information about how it works.
